EDUCATION

MNS-University of Agriculture, Multan

Bachelor of Science in Computer Science – GPA: 3.6/4.0

Sep 2023 – Sep 2027

Multan, Punjab

EXPERIENCE

VieroMind - Full Time

Software Engineer

Oct 2025 – Present

Lahore, Punjab

- Engineered **150+ features** and fixed **127 major bugs** across **3 products**, owning **40+ functional areas** using T3 Stack (Next.js, TypeScript, tRPC, Prisma, PostgreSQL), eliminating **300+ TypeScript** and **100+ ESLint errors** to zero under strict mode.
- Led security hardening rounds closing **18 P0/P1 authorization and IDOR vulnerabilities** across backend routers with negative-authorization tests and audit logging, protecting health and financial endpoints.
- Built the VieroCompass behavioral assessment engine (V2: 4 rounds, cumulative scoring) with an ML telemetry backend maintained by a **306-test regression suite**, full EN/UR/AR localization across **1,356 synced keys**, and a **101-document RAG knowledge base**.

DigiStartUp - Internship

MERN Developer

Mar 2024 – June 2024

Multan, Punjab

- Shipped **20+ full-stack features** using the MERN stack across a 3-month engagement, reducing average page load time by **20%**.
- Contributed to **6 production releases** in a fast-paced startup environment, maintaining **99.9% uptime** with zero critical regressions.

PROJECTS

HyprFlux

Jan 2025

- Built a complete Arch Linux OS with a custom **archiso** live ISO, TUI installer (UEFI and BIOS), and a full branded boot pipeline (GRUB, Plymouth, SDDM).
- Shipped a one-line installer with automated package provisioning, GTK theming, and pre-integrated AI developer tooling.
- Impact:** **900+ GitHub stars**, **62+ forks**. **Tech Stack:** Bash, archiso, Hyprland, Waybar, Rofi, SDDM, GTK, Zsh, Neovim

RAF-SP (Regional Agriculture Facilities – South Punjab)

Jan 2026

- Developed a government-grade asset and resource management system adopted by **15+ agricultural departments across South Punjab agricultural institutions**.
- Delivered role-based dashboards with real-time analytics and equipment lifecycle tracking.
- Tech Stack:** Next.js 16, React 19, Tailwind, Shadcn UI, Prisma, PostgreSQL, Recharts, Framer Motion

SKILLS

- Languages:** TypeScript, JavaScript, Python, SQL, Bash, C++
- Frontend:** React, Next.js, Tailwind CSS, Shadcn UI, GSAP
- Backend:** Node.js, tRPC, Prisma, PostgreSQL, Redis, WebRTC, lambda, RAG/LLM
- Cloud & DevOps:** AWS (EC2, S3, RDS, ECS, DynamoDB), Docker
- Systems:** Linux, Networking, Security, Data Structures & Algorithms

EXTRACURRICULAR

- Solved over **400+** problems on different platforms **LeetCode** and **GeeksforGeeks**.
- Secured **2nd place and 92 worldwide** in CALICO Spring '25 CP from **UC Berkeley**
- Secured **1st place** in a 3-day hands-on Cybersecurity organized by Ignite
- Secured **2nd place** in the VieroMind Pakathon competition Event held at MNSUA University.
